

## Profile

AJJ Glass to service the needs of our customers by exceeding their expectations of quality and service on all our processed glass products.

We are primarily a supplier and exporter of laminated glass, toughened glass, bulletproof glass, curved tempered glass, insulated glass, and switchable glass, supplying both the China and overseas.

The applications of our glass products range from doors and windows, to shower screen, shop fitting, glass pool fencing and glass balustrades, glass partitions, glass flooring, glass stairs and treads, glass tables, glass shelves and curtain walls.

Maximizing on our own experience we aim to supply the highest quality glass products at the best rates and lead times. And all of our glass products comply with various standards in place in the markets we operate in. For example, we are SGCC certified for compliance with both ANSI and CPSC tempering standards in the US. At the same time we also offer CE labeling for the European market.

We can supply the finished product, or alternatively offer a “customers own” service for printing, sandblasting and unit make up. Most of our work is bespoke in nature, and so we encourage any potential new customers to ask us to quote.
