PRODUCTS OR MACHINERY

NATURAL VENTILATION

Aerope exhaust air systems especially for the extreme requirements of heavy industry

AIR INPUT

Natural and efficient supply of outside air to indoor spaces. Versatile fresh air systems - depending on requirements - also available with high sound insulation

PRESSURE RELIEF

The Aerope pressure relief system ensures fast and safe pressure relief

COMBINED SMOKE EXTRACTION & VENTILATION SYSTEMS

For a wide range of requirements, from thermally insulated glass roof constructions to simple double flap ventilators

CUSTOMISED PRODUCTS

For special structural features and high requirements for the supply of heated process air from the building. Solutions and prototypes specially tailored to your needs.

FORCED VENTILATION

Mechanical ventilation systems for special industrial applications, such as use in the automotive and pharmaceutical industries.

SOUND INSULATION & FACADES

Aerope outdoor air systems for architecturally sophisticated and technically outstanding solutions. The perfect combination of aesthetics and functionality.

AERPE

COMPANY
PLANNING, PROI

Consulting, sales, design and production in-house, installation and maintenance of new and existing systems on-site. Our professionalism and flexibility are reflected in the wide spectrum of our customers: from international industrial groups that work under the highest heat loads to medium-sized production companies.
